

Black Hills Caves!

Beneath the Black Hills of South Dakota is the intriguing underground world of Jewel Cave! With 173 miles of explored passageways, Jewel Cave ranks one of the longest caves in the world!

Here are some fun facts!

1. Two brothers found Jewel Cave while they were on their horses!
2. When one drop of water falls it makes a rock!
3. The Black Hills Caves is also home of two caves that happen to be National Parks!
4. Builders began their handwork in the Black Hills Caves 60 million years ago!
